About Us

Radisson Washing Plant Ltd. is one of Bangladesh's most reputed and environmentally compliant garment washing and dyeing facilities. Equipped with advanced European and Asian machinery, the plant provides world-class washing, dyeing, and finishing solutions for denim and non-denim garments.

Our dedicated team of washing experts, technicians, and engineers ensures superior quality and sustainable operations aligned with global compliance standards.

Mission, Vision & Core Values

Mission

To deliver sustainable, innovative, and premium washing and dyeing solutions that meet global apparel standards while maintaining social and environmental accountability.

Vision

To become a leading washing and dyeing partner in Bangladesh through technology, sustainability, and craftsmanship excellence.

Core Values

Managing Director's Message

At **Radisson Washing Plant Ltd.**, our journey over the past 16 years has been guided by a single principle: excellence in every fiber of our operation. From production quality to environmental responsibility, we have consistently sought to set industry benchmarks in textile washing and dyeing.
Our commitment to innovation and sustainability drives every decision we make.

By investing in cutting-edge technology, modern machinery, and the continuous development of our workforce, we ensure that our clients receive not only superior products but also solutions that align with global standards of efficiency, safety, and eco-consciousness.

Bangladesh Garments Idustries is a potential sector for our unemployment solution of Bangladesh. The Youth get their potentiality in work and get train in various sector of this industries. So they can drive themselves in a right direction or career.

Mr. Md. Mojibur Rahman
Managing Director
Radisson Washing Plant Ltd.

We believe in building partnerships, not just transactions. Our success is measured by the success of our clients, and we strive to support their growth by providing reliable, innovative, and customized washing and dyeing solutions.

We beleave in sustainable Eco friendly environment and our strategy also remain according to that while we doing the business.

...Thank you

Director's Message

At Radisson Washing Plant Ltd., our journey has always been guided by a commitment to quality, responsibility, and continuous improvement. Since our establishment, we have focused on building a modern, environmentally compliant garment washing and dyeing facility that meets the evolving demands of global apparel brands while upholding the highest standards of sustainability and operational excellence.

Saifur Rahman
Director
Radisson Washing Plant Ltd.

Bangladesh's garment industry is a cornerstone of our national economy, and its future depends on innovation, skilled talent, and responsible manufacturing. I strongly believe that the youth of our country are the driving force behind long-term growth, bringing creativity, adaptability, and energy to build a more competitive and sustainable textile industry.

At Radisson, we foster an environment where young professionals can learn, grow, and build meaningful careers through hands-on training, modern technology, and a strong culture of teamwork. Sustainability remains central to our operations, supported by advanced machinery, eco-friendly processes, and strict global compliance.

As we move forward, Radisson Washing Plant Ltd. remains committed to innovation, youth empowerment, and green manufacturing—working together with our clients and partners to contribute to a greener, more prosperous Bangladesh and a stronger global apparel industry.

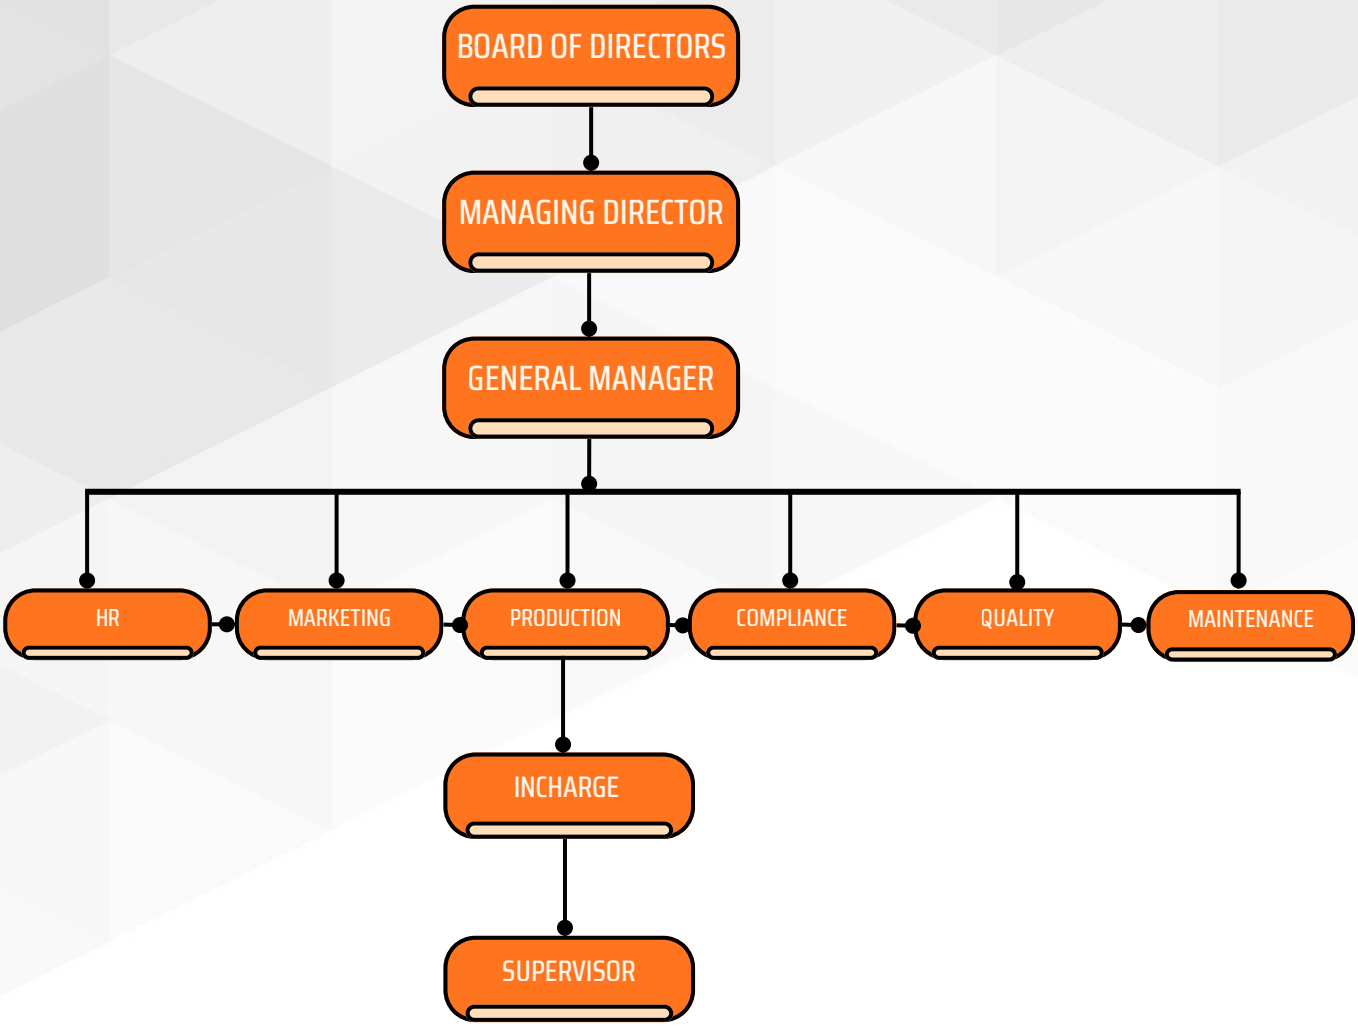
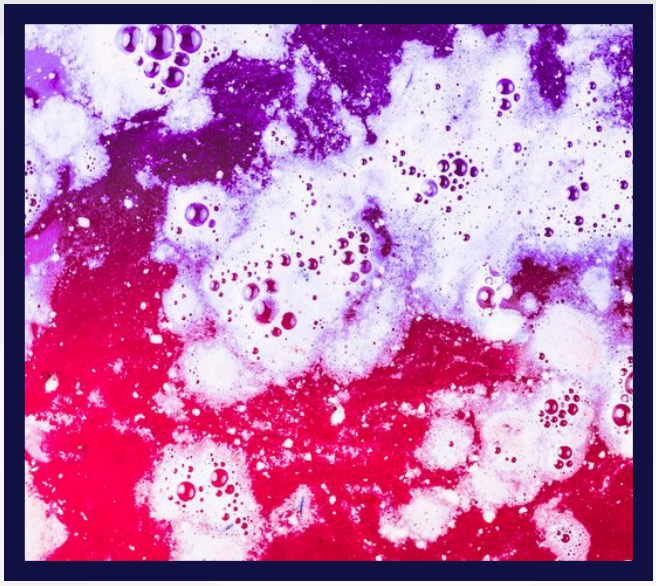
Organizational Structure



Range of Services

Wet Processing

Our advanced wet processing division specializes in a wide range of garment washing techniques designed to enhance fabric feel, appearance, and durability. Each process is carefully monitored to achieve consistent, high-quality results according to client specifications.



Processes include:

- Acid Wash
- Bleach-out Wash
- Enzyme Wash
- Heavy/Enzyme Stone Wash
- Stone Enzyme Bleach Wash
- Enzyme Silicon Wash
- Rubber Ball Wash
- Peach Wash
- Heavy Wash
- Dirty Wash
- Chemical Wash

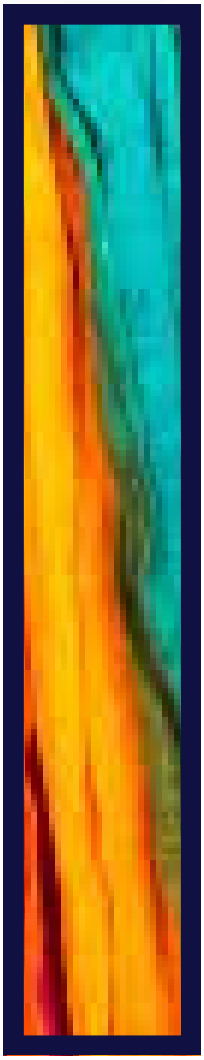
Range of Services

Dyeing

We offer comprehensive dyeing services using advanced techniques and high-quality dyes to ensure vibrant, long-lasting colors that meet international standards.

Processes include:

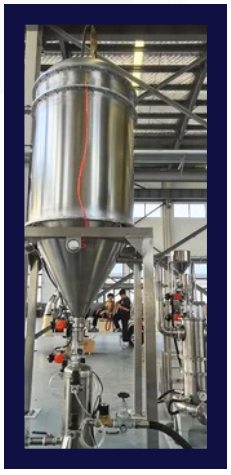
- Reactive
- Pigment
- Discharge
- Direct
- Towel Dye
- Tie Dye

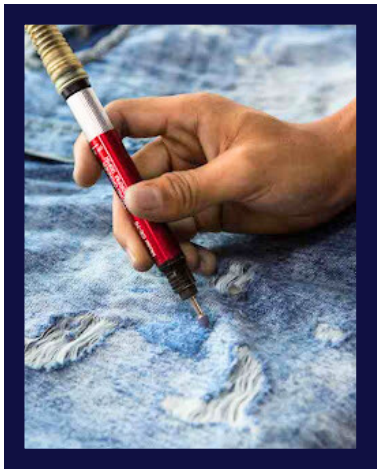


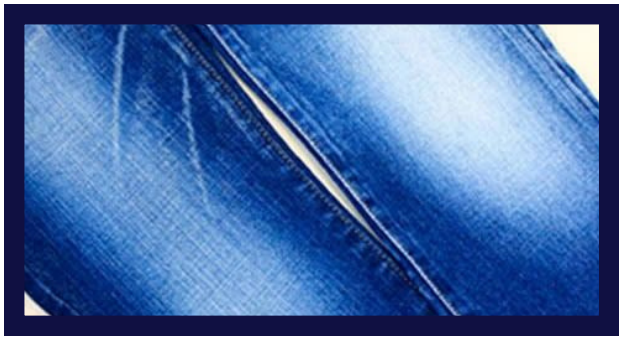
Range of Services

Dry Processing

Our dry process department is equipped with modern technology and skilled artisans to create distinctive textures, shades, and finishing effects. Each garment is treated with precision to meet fashion trends and buyer demands.







Processes include:

- 3D – Crinkle effects
- Grinding/Damaging
- Mending with Stitching
- Hand Brush
- Scrunch/Crumple
- Scraping
- Tagging
- Tint
- Whisker
- And other special
- finishes PP Spray
- Destroy Tie

Quality Assurance

Our Quality Assurance Department plays a vital role in ensuring that every garment leaving our facility meets and exceeds internationally recognized quality standards. From raw material inspection to final product evaluation, our dedicated QA team closely monitors each stage of the production process with precision and care.

- 100% inspection is carried out at each stage — from washing to packing.
- Skilled and experienced QC personnel monitor every production line.
- Final products are screened and approved according to customers' required AQL levels before shipment.
- We believe in maintaining consistency, precision, and customer satisfaction through our commitment to quality.

Effluent Treatment Plant (ETP)

Environmental sustainability is one of our top priorities.
Our washing plant is equipped with a state-of-the-art Bio-Chemical Effluent Treatment Plant, ensuring compliance with international environmental regulations.

- The ETP effectively decontaminates wastewater through a combination of biological and chemical processes.
- Treated water meets all eco-friendly discharge standards, minimizing environmental impact.
- This system reflects our dedication to sustainable operations and responsible manufacturing practices.

Production Capacity & Strength

Production Capacity

1.4 Million pcs/month

(Denim, Dyeing, Acid Wash, Tie & Dye)

Equipped with advanced European and Asian machinery, Radisson Washing Plant Ltd. delivers high-volume production with consistent quality, precision, and sustainability — meeting global standards in every wash.

Our Strengths

- **Goal 12:** Responsible Consumption & Production
- **Goal 13:** Climate Action

SWOT Analysis

Strengths

- Advanced machinery & skilled workforce
- Strong ETP & environmental compliance
- Reliable product quality & capacity
- Experienced management

Weaknesses

- Limited export diversification
- High production cost
- Space constraints
- Dependency on raw material imports

Opportunities

- Growing global demand for sustainable denim
- New international clients & certifications
- Local sourcing alliances

Threats

- Global economic slowdown
- Raw material price fluctuation
- Policy changes & competition
